Spartans, we did incredible almost 40.000 pictures of you in action!

In media there are about 15 pictures per person!

We could not recognize all your race-numbers, but don't worry: you will find ALL your pictures easily if you follow the Spartan-Sportograf-Code:

1. We call the pictures with unrecognized race-numbers "unsorted pictures"
2. Every Spartan can add "unsorted pictures" showing him to his already ordered Foto-Flat package free of charge! No stress: this will work also years after your order!
3. "Unsorted pictures" are sorted in chronological order in categories. Each category is showing the pictures of one foto-spot/obstacle.
4. You can simplify the search within the "unsorted pictures" by choosing a reasonable timeframe. Please use daytime in 24hour format. Example: from 13:15 till 13:25
5. These files are sorted by first name and will show you your race-number (if you forgot it) PLUS the daytime of your Start + obstacle 7, obstacle 14, obstacle 18 (only Super distance) and finish line.

[Roma Sprint: obstacles 7 + 14](#) (right click -> save as)

[Roma Super: obstacles 7 + 14 + 18](#) (right click -> save as)

This is the [MAP of the course](#) which is helpful as well.
